Education

Africa International University

Information Technology

May 2018 - July 2024

Bachelors

Experience

Alliance High School

Information Technology Support Technician

May 2023 – August 2023

Kikuyu, Nairobi

My primary duty encompassed troubleshooting and resolving network connectivity issues across various laboratories. We were tasked with the meticulous maintenance of internet access points, ensuring seamless Wi-Fi connectivity for offices. This role not only provided me with hands-on experience but also afforded me the opportunity to delve into the complexities of diverse networking components, ranging from lite beams and routers to Wi-Fi extenders and nano-stations.

Skills

Languages

JavaScript, Python, HTML/CSS, SQL (MySQL, SQLite3)

Frameworks

Django, Flask, React, NodeJS, ExpressJS, Redux, Tailwind

Developer Tools

Git

Certifications

Information and Communication Technology (ICT)

January 2018 - March 2018

Competence

Daystar Universiy

Certificate in Information & Communication Technology in Daystar is a program where I learned about the industry computing infrastructure support, system, and data security as well as software development needs that arise because of Information Technology.
